Accounts and Operations Executive

Financial Reporting & Analysis

- Prepare monthly P&L reports, management summaries, and board-ready performance packs for CEO review — analysing revenue, gross margin, and cost variances versus prior periods, with written variance commentary explaining key drivers.
- Maintain budget trackers for operational expenditure; monitor actuals versus budget across cost categories and flag material variances for management review.
- Assist in UAE VAT calculations and indirect tax filings in coordination with line manager; support reconciliation of tax positions ahead of filing deadlines.
- Run month-end close: account reconciliations, ledger reviews, pre/post-closing checks, and discrepancy clearance across all accounts before close date each month.
- Manage AP/AR across 475 active accounts — 319 suppliers and 156 clients; investigate discrepancies and follow up on outstanding balances.
- Support IFRS-compliant annual audit (Kreston Menon Chartered Accountants) through organised, audit-ready documentation and timely issue resolution.

Finance Systems Transformation

- Led full ERP migration from Tally to Odoo: data validation, inventory database cleansing, master data review, and cross-team co-ordination from planning through go-live — directly comparable to ERP system transitions in enterprise environments.
- Took over a finance function with no filing system or documentation; rebuilt the entire structure from scratch — document retrieval reduced from days to minutes.

- Prepared and reviewed client financial filings; maintained audit-ready documentation under strict reporting deadlines.
