Hiring Manager

Al Tayer Group — Al Tayer Insignia

Dubai, UAE

Dear Hiring Manager,

I am writing to apply for the Business Support Analyst role within Al Tayer Insignia's Beauty Distribution function. Al Tayer Insignia's position as the luxury retail leader across Beauty, Fashion, and Home in the Middle East — representing brands including Armani, Harvey Nichols, and Bloomingdale's — makes this an environment where commercial analytics and performance insight genuinely matter. I am drawn to a role where I can translate sales and financial data into decisions that drive a premium business.

In my current role at Promotech Advertising, Dubai, I produce monthly commercial performance reports for CEO-level review — analysing revenue trends, gross margin variances, and cost performance across 475 active supplier and client accounts, with written commentary identifying key challenges, opportunities, and recommended actions. I also deliver ad hoc data analysis and financial modelling to support day-to-day business planning, and track account-level sales performance patterns against prior periods. This is exactly the work described in this role — commercial reporting, variance analysis, KPI tracking, and business planning support — applied in a live commercial environment under real deadline pressure.

My M.Sc. in Financial Economics, Big Four experience at Ernst & Young, and hands-on background in performance monitoring and stakeholder reporting give me the analytical foundation and commercial mindset this role requires. I am confident in translating complex data into clear, actionable insights and in working across functions — finance, commercial, and operations — to deliver reporting that supports business decisions. I would welcome the opportunity to bring this capability to Al Tayer's Beauty Distribution team.

Thank you for considering my application. I look forward to the opportunity to discuss how my background aligns with the needs of this role.

Yours sincerely,

Muhammed Ashnad K
